EXPERIENCE

Goprotoz UI UX Design Agency | Software Developer   **October 2024 – Present**

- Led development of AI-powered no-code tools and analytics platforms, including a landing page builder with GrapeJS and an enterprise-grade UX analytics system using Next.js, NestJS, Kafka, and PostgreSQL—boosting user engagement and positioning the company competitively against tools like Mixpanel and Google Analytics.
- Optimized and maintained Goprotoz and client websites, enhancing SEO performance and accessibility by 90%, translated Figma designs into responsive web interfaces using Tailwind CSS and integrated Sanity CMS for scalable content delivery.

IBM Internship | Frontend Developer Intern   **June 2024 – August 2024**

Built Share Your Food, a donation-based web app using HTML, CSS, and JavaScript to improve surplus food distribution; enhanced accessibility and performance, leading to a 75% increase in successful donations across underserved regions.

Singaji Software Solutions | Full-stack Developer Intern   **January 2024 – June 2024**

Completed a 6-month full-stack development internship focused on building scalable web applications and interactive tools using React.js, Node.js, MongoDB, and REST APIs in an agile, team-based environment—gaining strong hands-on experience in modern web architecture and collaborative development workflows.

PROJECTS

Superleads   *Next.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, AWS*   🌐 Website
Developed a no-code landing page builder using GrapeJS with drag-and-drop functionality, real-time preview, and reusable components, integrated AI-driven HTML/CSS generation and analytics, increasing lead conversions and user engagement by 70%.

UXAnalytics Platform   *Next.js, NestJS, Kafka, PostgreSQL, Microservices Architecture*   🌐 Website
Architected the full-stack infrastructure of UXAnalytics, a microservices-based analytics platform using Next.js, NestJS, Kafka, and PostgreSQL, implemented session replays, event tracking, and AI-based UX insights—positioned as a competitor to Google Analytics and Mixpanel.

Food Ordering App   *Next.Js, MongoDB, AWS S3, Stripe*   🌐 Website
Launched a responsive food delivery platform with secure role-based access, enabling users to browse menus, place orders, and complete payments via Stripe. Equipped admins with tools to manage food items, update menus, and track real-time orders and transactions via a dedicated dashboard.

Pathfinding Visualizer   *React, BFS, DFS, Bidirectional BFS, Dijkstra's, A*.*   🌐 Website
Built an interactive tool to visualize pathfinding algorithms on a dynamic grid. Allowed users to define start/end points, explore obstacles, and see real-time animations of shortest path discovery—enhancing learning through intuitive visuals.
